initiative name

## STRENGTHS

  
Which are your superpowers?

## IN 2030...

  
What is your 20-30 agenda?

## DIFICULTIES

  
Something that is hard to do, understand or surmount, something you dislike.

## WE ARE...

  
One sentence self description

**Local Scale:**  
-Activate local unused school buildings & establish regular encounters within the communities

**Regional Scale:**  
-Partner with other local practices in order to create an active network in Epirus

**Transnational Scale:**  
- Connect and become part of a wider network of initiatives working around territorial issues, food production sovereignty, new exchanging forms, collective intelligence and emergent crisis-resilient socio-technological systems

Understand concrete tools and methods for local practices and communities on how to analyse problems, how to plan actions, how to find resources, how to implement actions and measure results. How to involve stakeholders and communicate throughout these steps.

..an initiative and an open platform which explores multi-cultural heritage related to local technologies, gastronomy and culture specifics from rural communities in northwestern Greece.
